

WORK HEALTH & SAFETY POLICY

Mi Electric is committed to improving the effectiveness of our Occupational Health and Safety System. Mi Electric has implemented a Safety Management System which meets the requirements of AS/NZS 4801:2001. We will ensure our activities are conducted in a manner that prevents occupational injury and harm by establishing a healthy and safe work environment while empowering our team members to adopt a lead-from-the front approach.

Our Commitment

- 🔊 Maintain a healthy and safe workplace for all workers and visitors.
- 🔊 Provide a framework for setting measurable objectives and targets to ensure continued improvement aimed at elimination of work-related injury and illness.
- 🔊 Comply with legislation standards and industry codes of practice relevant to our business activities.
- 🔊 Minimise the risk by identifying hazards, assessing risks and implementing and reviewing suitable controls.
- 🔊 Maintain clear delegation of responsibilities and accountabilities.
- 🔊 Educate and train our workers and sub-contractors so they can perform their duties competently and safely.
- 🔊 Consult with workers about health and safety matters to identify ways of reducing safety risks.
- 🔊 Communicate company policy and promote safe work initiatives.

Your Commitment

- 🔊 Adhere to Mi Electrics safe work practices, objectives and instructions.
- 🔊 To perform their duties in a manner that ensures their own health and safety and that of others.
- 🔊 Observe all directives and procedures and discuss with their Supervisor any hazard that they themselves cannot eliminate.

Mi Health. Mi Safety. Mi Future.
